

TOP 10

Features of our Website

1. Live Inventory and Pricing

You will see accurate, current pricing and inventory immediately. No time lag, it's all "real-time" information.

2. My Account

The **My Account** dashboard gives you access to many things. You can manage your login credentials, view orders and invoices, access saved orders for quick reordering, view and manage shopping lists, and even manage users if you are set up as an Admin user.

3. Stock Items Only Filter

Allows you to narrow your search to show stock items only for quick delivery or pick up.

4. Sale Pricing

When signed in, you will see items on sale along with the percentage you are saving off the regular price. The **Promotions** tab offers easy access to the majority of the items on sale, too.

5. Shopping List Functionality

You are now able to arrange items on your shopping lists with drag-and-drop functionality. Quickly copy a shopping list or share it with co-workers or the sales rep to manage the lists. Add all items to the cart with one click or add them one-by-one. The best part is you can set up an email reminder to order products from a list, whether it's weekly or monthly. This is, by far, the most efficient way to shop if you are buying many of the same products!

6. Shop By Brand

Looking for a certain brand? You can just click on the **Brand** tab, find the brand and head to the brand page. You will see general information about the company, a link to their website, and a listing of product categories to help get your search underway.

7. Website User Role Options

If you want to manage your own users, this platform allows you to do that. We assign an Admin at your company who can then set up other internal users. Each role comes with its own permissions so whether you need orders approved or to set a budget, we can help you get that all organized.

8. Free Shipping & Same Day Shipping

Orders over \$300 will receive free UPS Ground shipping. We also provide same-day AM and PM delivery for \$11.95 in and around the Twin Cities. **NOTE:** Freight charges will be passed along on any direct shipments from a manufacturer.

9. Live Chat

Tired of sitting on hold? We offer live chat during business hours. Our customer service representatives can help you with anything and it doesn't have to be website related. Our response time has been less than 60 seconds and the customers love it!

10. Easy Checkout

Our shopping cart to checkout process is quick and simple. All you have to do is fill your cart and select a fulfillment method. (If a you select "pickup," you need to check to make sure the items are stocked in one of our nearby distribution centers.) While in the shopping cart, you can create a saved order, create a shopping list, or proceed to checkout with one click. At checkout, you will select a shipping service, payment method and add a PO. You also have the option to add a promo code, add an order note, request a delivery date, or ship everything together in one shipment.
