

# Introducing Easy Indy

Size large is displayed

**EASY INDY** is a product of JM3 Engineering & Design. This tool is made by machinists for machinists and is manufactured in the great state of Minnesota. **EASY INDY** is a new and exciting product that will substantially decrease your set-up and tool change time. Available in small, medium and large sizes.

The **SMALL** "EASY INDY" is designed to work in most all Swiss machines and small lathe machines that use 3-pronged style collets. The 3-prong thickness of this tool is .040/.050 wide. It will not fit in some style collets with an extremely wide slot, example LT12 12mm collet. The tool is designed to accept the indicator alone (small hole) or any length extension. This tool is not designed or made to insert or remove collets.

**Small# JM3E11212**  
**Only \$43.50**

The **MEDIUM** "EASY INDY" is designed for fast and easy precision tool indication, in small to medium size lathes. It will fit most all 3-sided or 3-pronged collets and collet pads. s22 pads, s16 pads, 5c collet, dead length collets and many more. The three tabs on the "EASY INDY" indicator holder measure .06 - .100 thick. The newer version will fit pads and collets.

**Medium# JM3E11213**  
**Only \$47.50**

The **LARGE** "EASY INDY" indicator holder was designed to fit medium-to-large lathes that use s22 style pads or 3-slotted collets or jaws. Will fit up to 2.500" diameter pads.

**Large# JM3E11215**  
**Only \$56.75**

**Offer Good Through 12/31/22**
