

Introducing
our **NEW**
Gas Monitor
Rental
Program

Mars Supply is excited to launch our NEW GAS MONITOR RENTAL PROGRAM!

Partnering with MSA, we **rent, sell and service** premium gas detection and monitoring systems, offering a large inventory of gas detection systems for industrial and mining industries. You can trust Mars to calibrate and maintain your equipment with foremost quality and proficiency. Contact our trained gas detection specialist today and learn more about this **NEW** value-added service.

**ALTAIR® 4XR Multigas Detector, (LEL, O2, H2S & CO),
Charcoal Case, North American Charger, #MISA10178557**

Outfitted with rapid-response MSA XCell® sensors, the ALTAIR 4XR Gas Detector is the toughest 4-gas monitor on the market and is backed by a 4-year warranty. The ALTAIR 4XR can also provide real-time incident awareness to team members, supervisors, safety managers and others when paired with the MSA ALTAIR Connect app via a Bluetooth® wireless connection.

The Big Decision ~ RENT vs. BUY

When making the rent vs. buy decision, consider how often the equipment will be used. If it's not an item that will not be used frequently or if it's a specialty piece of equipment, then rental is often the more cost-effective solution. Still not sure? Don't hesitate to contact our trained industry safety specialist, so we can assist you in making the best decision for your business.

Our Commitment to You!

- All equipment is 100% tested prior to shipment
- Every unit is fully-charged
- Any basic accessories needed for operation will be included

Your Cost

Our valued customers can request short-term, or even long-term, multi-gas portable gas detection instruments customized for their particular needs on a daily, weekly or monthly basis.
