Additional Services

Cecor Sump Shark® Rental Program

Mars Supply is excited to launch our **NEW** value-added service — our **Sump Cleaner Rental Program!** Partnering with **Master Fluid Solutions**, we now **rent** a high-suction sump vacuum with enough power to remove fluid and heavy sludge from CNC coolant/oil tanks. The Sump Shark® CNC coolant vacuum quickly removes and filters industrial fluids from machine tools to reuse, recycle or transport to a waste area in your plant.

Improve your process and reduce your labor hours by ditching your Shop-Vac or pail and shovel method. This sump cleaner tool helps keep coolant tanks clean and improve your industrial metalworking processes.

Applications that benefit from Sump Shark® sump cleaners include:

- General Machining
- Screw Machines
- Grinding
- Plasma Cutting
- And More!

Rent
for only
\$75★
per day!

★ Weekly rate available
