

## Increase Productivity and Extend Tool Life

- For tapping and drilling stainless steel, carbon steel, inconel, monel, hastelloy, titanium, aluminum and other alloys and exotics
- Improve Finish and Size Accuracy
- Does not contain 1,1,1 Trichloroethane

**Drilling and Tapping Fluid** - A heavy oil that sticks to the tool throughout extreme operations and reduces torque. It is environmentally safe and has a mild but pleasant odor.

**Light** - A light viscosity heavy duty drilling and tapping fluid that reduces torque. It is ideal in a re-circulating system and can be added to cutting oils to increase E.P. and lubricity properties. It will not contaminate the coolant in the machine sump and floats to the surface for easy skimming.

**Foamy** - A heavy duty aerosol that foams on contact to coat the cutting tool. It is ideal for use on a mill or lathe and will not contaminate the coolant.

**Wax Stick** - Multi-purpose lubricant which effectively removes heat and lubricates while withstanding tremendous pressures. It may be used as a replacement for tapping fluids and cutting oils and is ideal for metal sawing, drilling, tapping, pipe threading and as a cement form releasing agent.

**DORMER PRAMET**

Order#	Description	Size	Pkg Qty	List Price	Sale Price
UNB1910512	Drilling & Tapping Fluid	1/2 oz. Trial Size	1	\$1.10	<b>\$1.01</b>
