HSS Countersinks

HSS Uniflute® ~ Series 61

HSS Chatterless 6-Flute ~ Series 79

Series 61 HSS Uniflute® Countersinks are designed for general purpose countersinking, chamfering or deburring • Self-piloting and completely chatterless • No secondary burs formed • Each size may be used on a wide range of hole diameters • Use on machine tool or in hand-held tool applications • Easily resharpened • Steam homogeneous surface treatment (blackening) to prolong tool life and prevent galling

*Straight shank with tang drive ~ Standard angles may be modified from 55° to 119°

Series 79 HSS Chatterless 6-Flute Countersinks are designed for economical, general purpose countersinking, chamfering or deburring. Because of the multiple flute design, chip loads are generally smaller. Even at maximum speeds, chatter-free machining is possible. Steam homogeneous surface treatment (blackening) is used to prolong tool life and prevent galling.
